

My name is Junko. I have been taking (CLC tutor program) ESL lessons for 1-1/2 years. I learned about American culture and American holidays. I improved my conversation skills and shopping knowledge. Sometimes I asked my tutor to explain my son's school programs. I was in a car accident. My (tutor) phoned the insurance company about the collision. My tutor took me strawberry picking. My tutor introduced me to a Chinese friend who is now in Japan as a missionary.

I learned how to write good sentences. I learned grammar and how to read stories and increased my vocabulary. Traudy is the best teacher. I was comfortable having (tutor sessions) with her because she helped me correct my mistakes immediately. (The Community Literacy Council's) ESL tutor program is a good program. My tutor and I have become good friends.
