

This is a picture of my tutor, Bob, and I, Ruth, on December 2005, studying at the Northville Library.

I am from Colombia, a college graduate and working here as an au pair to improve my English. My goals are to become proficient in English, eventually earn an MBA and to have a professional career. At our Monday morning sessions we worked on my preparation for the TOEFL, pronunciation, and grammar with an emphasis on the language of business. I really appreciate the tutoring I received through the

Community Literacy program. It had definitely given me more confidence in speaking and writing English, which will help me to reach my goals. Thank you very much!

Ruth
