

Getting Started using Cricut in the Lab

Create a Cricut ID

Your Cricut ID will allow you to store and access your saved designs and projects, and login to Cricut Design Space on our Lab computers. Limited access to a paid Cricut Access subscription is available in the Lab upon request. Register at https://cricut.com/en_us/customer/account/create/

Choosing your project

Our Cricut Explore Airs can cut a variety of materials like vinyl, fabric, and paper to create one-of-a-kind projects such as decals, cards, mugs, glasses, t-shirts, and more. Need inspiration? Check out Cricut's blog, which is constantly updated with seasonal project ideas at <https://cricut.com/blog/>. Cricut branded materials take the guesswork out of purchasing and can be easily found at major retailers like Walmart, Meijer, Michaels, JoAnn Fabrics, and more.

Available Tools

Our Cricut family also includes the EasyPress 2, Mug Press, EasyPress Mini, Cricut Pens, all available accessory blades, Scoring Stylus, and basic tool set.

Still have questions?

Cricut has many resources available for beginners at <https://learn.cricut.com/courses/learning-library>. We always love to hear about your projects and ideas. Send us an email at thelab@plymouthlibrary.org with any questions or ideas you have!
