

Exhibit Recognizes Black Auto Leadership

Plymouth District Library is pleased to host a traveling exhibit from The Automotive Hall of Fame (AHoF) called **Achievement**.

This traveling exhibit supports a larger exhibit of the same name at the Hall of Fame in Dearborn: a multi-channel experience about Black contribution to the automotive industry and the industry's impact on Black families and communities. *Achievement*

recognizes 19 African Americans' success stories, in the auto industry from 1873 to 2022. This exhibit can be enjoyed at PDL from **January 29 through**

"This exhibit is a celebration of Black innovation, invention and leadership. The contributions African Americans have made to the automotive industry have not been celebrated or even fully captured and shared. We recognize that these are important stories that need to be told."

automotivehalloffame.org

February 23, 2024. QR code-linked interactive elements make it possible to engage with the information in a gamified way.

PDL invites local educators (especially high school and middle school) to plan a class visit. An educator packet is available for use in conjunction with the exhibit: for info email hpacheco@plymouthlibrary.org.

Plus, **February 8 at 7pm**, enjoy a presentation from

Ryan Arnold, AHoF curator, and Kathleen Donald, AHoF vice president, regarding the exhibit.

Find Community Through Book Clubs

Visitors to Plymouth District Library are diverse in their background and their perspectives. One thing most hold in common is that they love books! Winter is a great time to get to know some of these members of your community through exploration of this shared interest. The library hosts book discussions for all ages, each with unique meetup time or book focus. Adults can choose between our lunch time Brown Bag Books group, our evening Contemporary Books group and our Books on Tap group, which gathers each month at Arbor Brewing Taproom in downtown Plymouth. English Language Learners may enjoy the online-only Page by Page book club. Details on meeting times and upcoming reads for these clubs can be found on page 3 of this newsletter. Not sure which group might be the best fit? Take a look at the upcoming reads and previously discussed titles for each group by visiting the Read/Watch/Listen page of our website (plymouthlibrary.org) and clicking Book Clubs.

Teens can connect over Books & Bites book club, which meets every other month. Young folks have quite a few book club options including Graphic Novel Book Club and Page Turners book club, both for ages 8–12. Readers ages 5-8 are invited to try the Book Worms Book Club, which introduces a new Easy Reader series each session. Participants get a list of titles to enjoy as well as some at-home activities to explore. Then when they come together at the meetup, they share about their reading and enjoy some fun. New this quarter is a group for ages 5-8 called History Makers, which focuses each session on - you guessed it! - a history maker, learning about their achievements through a picture-book biography read-aloud and related craft activity. For all ages, book clubs present an opportunity for community and for critical thinking about what you've read. All PDL book clubs are always open to new participants, and a fresh perspective is always welcome.

Computers & Printing

We've made some improvements to the way visitors log into and print from our public internet computers. This new system offers a number of benefits:

- Easier to use
- Option to pay for prints with a credit card
- 10 free pages per day can now be either computer printouts OR copies
- More secure system
- More intuitive for large-size prints

To get started, just give the computer mouse a wiggle and follow the prompts. If you need assistance the first time you log in to or print using the new system, just ask the tech staff at the reference desk. These recent updates have also streamlined our mobile printing process to be smoother and faster. For details on how to remotely print to library printers, visit <https://plymouthlibrary.org/computers-technology/>

Digital Kidstuff

The long winter months when kids are trapped inside or on a break from school can be a great time to check out the library's kid-friendly digital resources. Lerner Maker Lab is a great place to start. This tool encourages hands-on crafting, building, experimenting, eating, and celebrating with STEAM activities for preschool through upper-elementary aged kids. For your little artist or maker, CreativeBug from JoAnn Fabrics provides thousands of arts & craft tutorials. Click on the KIDS tab to zero in on age- appropriate projects. Our Lab on the upper floor offers additional opportunities for digital exploration - especially for older kids - including designing for 3D print, Cricut cutting and laser engraving on the Glowforge. Stop in to get an introduction or sign up for a class. Last but not never least, you can encourage kids to explore reading through digital books. Browse on Hoopla or Libby with special settings for Youth materials only, or check out LOTE4Kids, which features immersive videos of children's books in languages other than English. Go to plymouthlibrary.org and click Resources then Online Learning.
