

You Are Stardust by Elin Kelsey

Activities:

The book talked about different kinds of animals and what we have in common with them. Explore.org is the world's leading philanthropic live nature cam network and documentary film channel. Visit [explore.org](https://explore.org/livecams) and browse their many live nature cams (<https://explore.org/livecams>). See if you can spot some similarities yourself!

Go outside and connect with nature in person! Go for a walk and see how many different flowers you can find. Take a sketch book and draw a few if you're able.

Craft: record the Earth's rotation with shadows. All you need for this craft is a paper plate, a pen or any other straight object, and some playdough. Find full instructions from GiftofCuriosity.com: <https://www.giftofcuriosity.com/recording-the-earths-rotation-with-shadows/>
